

Montgomery County Public Schools supports internet safety by using technology protection measures to examine content of internet sites and block inappropriate content. The staff at Sherwood is committed to ensuring a safe and productive learning experience for all students. If necessary, consequences will be given for inappropriate use of Chromebooks and computers. Administration will determine appropriate consequences based on the nature of the situation.

Students need all teachers to:

- Communicate and model expectations for appropriate Chromebook and internet use
- Provide explicit directions for tasks in order to keep students engaged and focused
- Frequently check for understanding and monitor students' computer use to ensure a productive learning experience
- Ensure that teaching is not limited to Chromebook use, but encompasses a variety of meaningful, curriculum related learning activities
